

# DO YOU HAVE TROUBLE WITH CELLULITE?

We are conducting a clinical study for an investigational natural health product that may help reduce your double chin and cellulite.

You may be eligible to participate if you:

- Are you 20 to 55 years of age
- If your BMI is <30
- If you have a double chin or cellulite on your thighs and/or buttocks
- No significant medical history including heart problems or stroke
- Not pregnant or breastfeeding
- Not allergic to Soya Lechin

The above results were achieved over a 12-16 weeks of treatment taking 20 minutes once a week using our non-invasive cream and ultrasound technology.

Study participants will receive all study medication free of charge and be closely supervised by the study research team.
